

PERMEABLE PAVERS

Be Water Wise & House Proud.

ELIMINATE STANDING WATER,

reduce erosion and lower water demand with Belgard® Permeable Pavers. Our permeable pavers allow the movement of stormwater through the surface, reducing runoff and improving water quality by filtering pollutants.

BENEFITS TO HOMEOWNERS

- Eliminate standing water and improve drainage.
- More beautiful and durable than conventional paved surfaces.
- Can include a heating system to eliminate snow and ice build-up.
- Can include a water-harvesting system to recycle stormwater for irrigation.

BENEFITS TO COMMUNITIES

- Filter water back underground to recharge local groundwater supplies.
- Clean pollutants from stormwater to improve water quality of nearby lakes and rivers.
- Reduce demands on local storm drains.
- Reduce water used for irrigation.

Product Spotlight

Aqualine[®] Permeable Pavers

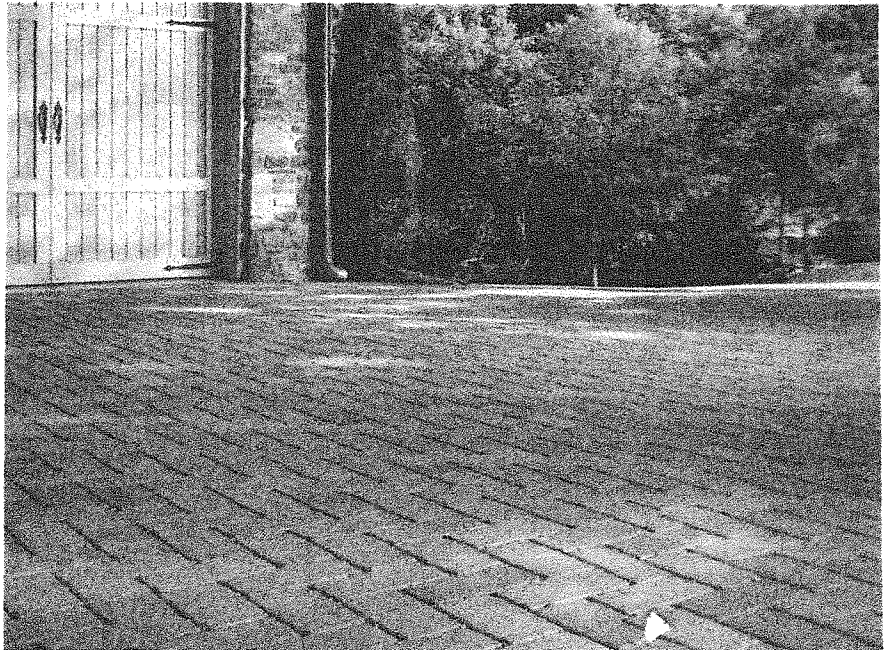

Aqualine permeable pavers can eliminate stormwater runoff and improve water quality plus eliminate the need for traditional drainage and detention requirements, saving space and money.

- Interlocking blind spacer bars for increased structural performance and aesthetics
 - Smooth surface with micro-chamfer to reduce vibration which can provide an ADA-compliant pavement
 - True installed dimensions with variety of sizes for optimizing design
 - Optimal joint openings for infiltration and maintenance
- 

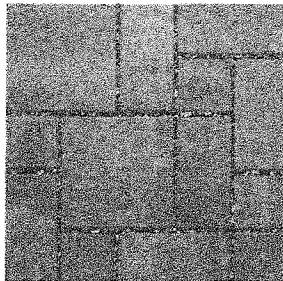

AQUALINE™ SERIES

PERMEABLE PAVERS

Aqualine permeable pavers, pedestrian and vehicular applications, smooth surface and a wide variety of colors for the ultimate in design flexibility.
